

## **New England Wind Energy Education Project (NEWEEP) Webinar #2**

**Title:** *“Understanding the Impacts of Wind Turbine Sound”*

**Date:** Tuesday, July 13<sup>th</sup>, 2010

**Location:** Webinar

**Time:** 2:00 – 3:30 PM EDT

**Register:** [rsvp\\_and\\_newf@neweep.com](mailto:rsvp_and_newf@neweep.com)

Thank you for including your name, organization and state.

Your Registration will ensure we reserve the correct number of phone lines and will add you to the email distribution list maintained by the National Renewable Energy Laboratory (NREL). You will receive future NEWEEP webinar invitations and the New England Wind Forum (NEWF) Newsletter.

**To only register for the NEWEEP Webinar #2 please email:** [rsvp@neweep.com](mailto:rsvp@neweep.com)

**Questions?:** [info@neweep.com](mailto:info@neweep.com)

On **Tuesday, July 13<sup>th</sup>, 2:00 – 3:30 PM EDT**, the New England Wind Energy Education Project (NEWEEP) is hosting its second **FREE** webinar in its 8-part Webinar Series. The webinar will include a discussion of wind turbine generator sound, permitting issues, and mitigation with a question & answer session. This event is designed for attendance by the general public, local officials, facility siting decision-makers, policy-makers, and others interested in a review of objective information on the impacts of wind energy.

### **Speakers:**

- Mark Bastasch, PE, Lead Acoustical Engineer, CH2M Hill
- Ken Kaliski, P.E., INCE Bd. Cert., Q.E.P., Director of Environment, Energy, & Acoustics, Resource Systems Group
- Jim Cummings, Executive Director, Acoustic Ecology Institute

### **Discussion Topics:**

- ✓ Introduction to sound generation, propagation, attenuation and measurement;
- ✓ Acoustic modeling techniques and analysis;
- ✓ Qualitative Considerations - Evaluating the experiential reports of wind farm neighbors;
- ✓ Non-wind industry methods for addressing sound-related annoyance
- ✓ Federal and state sound policies and regulations, and their role in the siting and permitting process;
- ✓ Mitigation and management;
- ✓ Areas of ongoing research.
